National Taipei University of Education Full-time Program Degree Conferral and Graduate Student Degree Examination Implementation Regulations

Key Points of the Amendment Explanation

1. Effective February 1, 2025, the university will discontinue the notation of credit programs or cross-domain expertise modules from other departments on degree certificates. Degree certificates will revert to a bilingual format in Chinese and English, with only minors and double majors being indicated. (Amendment to Article 6 of the Implementation Guidelines)
2. To accommodate current students who have completed credit programs or cross-domain expertise modules from other departments and obtained certification—and who have expectations or special needs regarding the notation of specializations on their degree certificates—the Office of Academic Affairs has planned transitional support measures. From the second semester of the 2024–2025 academic year until graduation in the 2027–2028 academic year, students wishing to receive the previous version of the degree certificate with specialization notation may apply through a special application process. The application period and procedures will be announced by the Office of Academic Affairs. The new version of the degree certificate will be fully implemented in the 2028–2029 academic year.
